**CLARIFICATION OF CRC NOT A DEVIDEND PAYING COIN DUE TO RECENT
WARNING DELISTING ISSUE**

The Crowdcoin (CRC) team hereby certifies that the distribution of dividends to funders of startup projects via our platform is not part of our business activities, the misunderstanding was due to our old brochure that was not updated and still in cointaned incorrect information.

Following this episode we have decided to remove the brochure from our official documentation.

The only document that constitutes our Official Documentation and fully represent our vision is our Whitepaper available on our official website crowdcoin.site

We (CRC) team therefore require your assistance in resolving this delisting issue and do get back to us if you require further information.

Thanks you.
